

PFOA^{*1} free fabric
with excellent durable water repellency

DANTOTSU HASSUI™

Compared with our conventional materials, this material features obtuse contact angles with water droplets, meaning they roll easily on the material surface. This creates outstanding water repellency.

The water repellent property is maintained even after 100 washes.

An innovative material with outstanding water repellency and free from PFOA^{*1}

*1) PFOA stands for perfluorooctanoic acid, a fluorine compound.
When used for a long period of time it produces toxicity,
creating concerns regarding the environment and health.

KOMATSU MATERE Co., Ltd.

不适用PFOA*1

出色的泼水性能 超耐久泼水面料

DANTOTSU HASSUI™

绝对第一！出色的不沾水性

与我公司传统产品相比，布料与水珠接触角为钝角，接触面积小，水珠易于滚动。由此可知这种布料隔断水珠的性能十分优越。

按家庭洗涤方式重复洗涤 100 次后，仍然保持不沾水性能。

*1 PFOA 是全氟辛酸 (perfluorooctanoic acid) 的缩写，是一种氟化物，人们发现若长期摄取它会产生毒性，在环境、安全方面令人担忧。
