

Hygienic antibacterial deodorizing fabric

# LUMIFRESH™

**Strong antibacterial power** ✨  
suppresses odor emission ✨

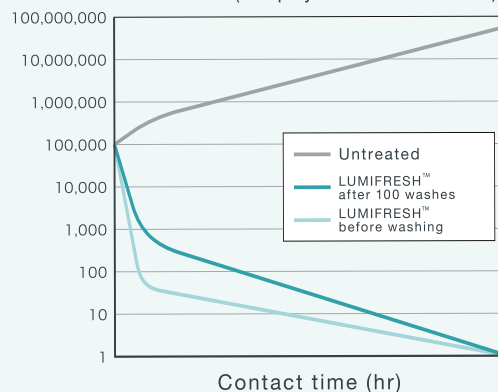

“**Strong washing durability,**  
even after 100 washes”

## “Freshness even when dried indoors”

Many people complain of the odor caused by indoor drying. The cause of the odor is the propagation of bacteria that remain in the fabric even after washing.

LUMIFRESH suppresses bacterial propagation in fabric, preventing it from producing a bad smell.

Bacteria propagation control effect  
(Staphylococcus aureus)

防止产生臭味  
强效抗菌机

洗涤100次后仍能  
保持效果

## “室内晾干也清清爽爽”

每天忙于上班或上学。  
洗好的衣服没法晒到外面，很多人都会为“室内晾干的气味”而苦恼吧？那种气味，是由于没被彻底清除干净的“细菌”聚集到纤维上并继续滋生而产生的。

“LUMIFRESH™”则能阻止纤维上的细菌继续增多、防止产生让人讨厌的气味。
